Zhongsheng · Beijing Emergency Safety Expo

June 28–30, 2023
Beijing Shougang Exhibition Center

2023 BEIJING INTERNATIONAL DISASTER PREVENTION, MITIGATION AND EMERGENCY SAFETY INDUSTRY EXPO

DEVELOPMENT OF EMERGENCY SECURITY
TECHNOLOGY TO HELP BUILD A SAFE CITY

AN INVITATION

Zhongsheng
To serve all exhibitors wholeheartedly

Provide a complete sourcing platform for buyers and
create more market opportunities for exhibitors.

FZEXPO 2023
Zhongsheng - Beijing Emergency Safety Expo

June 28-30, 2023
Beijing Shougang Exhibition Center

Organizers:

Beijing Zhongsheng International Exhibition Co., Ltd.
China Association of Medical Equipment
China Association of Safety Industry
Emergency Safety Science and Technology Innovation Alliance

Supporters:

Fujianshengtongyonghangkonghangyexiehui

Co-organizers:

General Aviation Branch of China Air Transport Association
Chinese Society of Inertial Technology Professional Committee of Navigation and Detection based on the Information of Aerospace-Aeronautics-Marine Integration
CHINA SECURITY & PROTECTION INDUSTRY ASSOCIATION
Committee member of virtual reality of China Communications Industry Association
Shenzhen UAV Industry Association
AVIATION ASSOCIATION
Tianjin UAV Application Association

Organizer:

Beijing Zhongsheng International Exhibition Co., Ltd.

Sponsors:

Nanjing Kongwei Communication Technology Co., Ltd.
Chengdu Xinglian Xintong Technology Co., Ltd.
Haike intelligent (Beijing) Technology Co., Ltd.
Jiangsu Koshichi Intelligent Technology Co., Ltd.
Jiangsu Bada Heavy Industry Machinery Co., Ltd.
Shenyang Huayu Rubber Products Factory
Shenzhen Haiqing Video Technology Co., Ltd.
Zhejiang Hydrogen Aviation Technology Co., Ltd.

2023 Beijing International Disaster Prevention, Mitigation and Emergency Safety Industry Expo

Previously got the earthquake, armed police, public security, water conservancy, CDC, hospital, health, navy, army, mapping, emergency, industrial information, transportation, embassies in China and other leaders attended the opening ceremony and delivered speeches.

FZEXPO 2023

Zhongsheng - Beijing Emergency Safety Expo

June 28-30, 2023
Beijing Shougang Exhibition Center

The theme of the 2023 Beijing International Industry Fair for Disaster Prevention, mitigation, emergency response and safety is "Developing emergency safety science and technology, helping to build a safe city", it is scheduled to be held from June 28 to 30 at Shougang Convention and Exhibition Center in Beijing. Based in Beijing and radiating the world, the Expo is held once a year, closely following the national policy requirements and fully investigating the needs of the industry, it is widely concerned by the fields of disaster prevention, reduction and safety emergency response at home and abroad, with forward-looking activities such as technical discussion, product demonstration, connection of production, teaching and research, and supporting needs, etc. , the event effectively promoted the promotion and application of emergency safety science and technology products and services, and played an important role as a platform for strengthening industry resource convergence and aggregation.

The Beijing Emergency Safety Industry Expo will focus on the scientific and technological innovations of the safety and emergency industry, the exhibits cover intelligent fire-fighting technology and equipment, aviation rescue, remote sensing and mapping, high-rise escape, flood control and drought relief, medical first aid, special lighting, earthquake early warning, satellite applications, emergency communications, Special Vehicles, VR disaster prevention, special tents, chemical safety, Mine Safety, police security, safety education, family emergency supplies, production safety, protection and rescue, dual-use military and civilian, command and dispatch, epidemic prevention materials and Emergency Response Systems, and other advanced scientific and technological equipment for the industry. During the same period, a variety of exchange activities will be held, including Industry Development Summit Forum, disaster simulation experience, lectures on self-rescue, science popularization of disaster prevention and reduction, signing of cooperative projects and introduction of new products, etc. , we will actively share new ideas, new models and new ideas for the development of safety and emergency industries, strengthen top-level design for industrial development, and create a sound ecological environment, to carry out high-end dialogue between government and enterprises, promote international trade exchanges, share outstanding case results, and help innovation and sustainable and healthy development of emergency safety technology.

We sincerely invite relevant scientific research institutes, production enterprises, social organizations, industrial parks, purchasing units, industry media, competent departments, international friends and emergency experts to attend the exhibition, we will jointly promote the high-quality development of the emergency safety industry and the cause of disaster prevention, Reduction and relief.

Scope of Exhibits

1 natural disaster monitoring and early warning

disaster and detection (earthquake disaster, meteorological disaster, mudslide, marine disaster, water, drought and fire disaster, bridge and tunnel safety protection, etc.) early warning, prevention, measurement, testing and quality testing equipment and application technology, etc.

4 emergency communication and information command system exhibition area

emergency communication equipment, satellite communication stations, short-wave radio, mobile emergency communication vehicles, emergency communication network systems, video conferencing systems, mobile video technology, satellite navigation systems, remote sensing systems, etc.

7 drones / helicopters and rescue robots

robots, UAV nuclear radiation detection, UAV border patrol, UAV aerial photography, UAV disaster surveillance, UAV traffic patrol, UAV security monitoring, and rescue transport aircraft, helicopters, gliders, blimps, etc.

9 fire safety emergency rescue equipment

fire alarm systems, fire rescue equipment, fire fighting vehicles and equipment, fire fighting equipment and products, fire prevention equipment and materials, fire fighting systems, rescue and security equipment, fire fighting equipment technology, etc.

12 pre-disaster defense products and post-disaster reconstruction equipment

disaster prevention and mitigation-related industries: advanced disaster prevention and mitigation technologies, programs, designs, urban emergency systems, etc.; social rescue service agencies, consulting and training service enterprises, emergency logistics service enterprises, etc.

2 disaster simulation system exhibition area

VR disaster experience, VR simulation technology, arena simulation, fire simulation, AR technology and other related technical equipment.

5 post-disaster rescue equipment

lighting equipment, thermal imagers, air breathing apparatus, search and rescue equipment, life-saving equipment, water purification equipment, rescue audio and video monitoring systems, life detectors, rescue vehicles; lifting, support equipment, demolition tools, power distribution vehicles, repair vehicles and other special vehicles, large excavators, reconstruction equipment, disaster relief reserve supplies and public disaster mitigation and household emergency supplies, etc.

8 safety production protection and rescue equipment

personal protective equipment, safety belts, protective clothing, protective masks, masks, eyes, gloves, shoes, air oxygen respirators; anti-terrorism equipment, police equipment category, safety production testing equipment, safety protection technology facilities and equipment, environmental protection facilities, traffic safety facilities, mechanical safety systems, monitoring systems, special safety vehicles, etc.

11 mapping and geographic information equipment

mapping application satellite, high and medium altitude aerial camera aircraft, low altitude mapping type UAV, mapping type unmanned ship, mobile measurement vehicle, measurement robot, laser 3D scanner, airborne LIDAR, photogrammetry camera, satellite remote sensing image data acquisition and processing and service solutions, etc.

3 flood control emergency rescue and information technology

flood control life-saving equipment, flood control and drought relief machinery, flood control and emergency equipment, flood control command and dispatch system, flood control and drought instruments, meteorological and lightning protection technology and equipment, flood control and drought relief materials, flood control and drought relief information systems and other related technical products.

6 epidemic prevention materials and emergency treatment equipment

military as well as civilian on-site first aid kits, on-site sampling supplies, medical equipment, disaster relief drugs, disinfection products, personal protection, medical emergency vehicles, health prevention vehicles, special vehicles, etc.

10 water search and rescue equipment

a variety of surface underwater search and rescue new products and new technology equipment, underwater communication equipment and instrumentation, various types of navigation and positioning equipment and instruments, a variety of underwater observation and detection equipment and instruments water drones boat, a variety of underwater cutting, welding and cleaning equipment, manned submersible, underwater remote control equipment, air and mixed gas diving equipment, saturation diving equipment, hydrographic instruments, detection and maintenance equipment manufacturers, echo detectors, a variety of underwater engineering equipment and maritime technology equipment, etc.

Pavilion planning

- 1, **Safety and protection pavilion:** safety production, explosion-proof electrical appliances, traffic safety products, protective supplies, emergency medical care, epidemic prevention materials, etc.
- 2, **Wisdom Pavilion:** wisdom firefighting, wisdom emergency, emergency command system, satellite communication, natural disaster monitoring and warning, disaster simulation, geographic mapping, emergency management big data, disaster prevention and mitigation software development, etc.
- 3, **fire hall:** building fire, fire equipment, fire water system, comprehensive fire extinguishing facilities, fire alarms, etc., forest and grassland fire products.
- 4, **flood control and drainage pavilion:** flood control, drought and drainage technology and equipment, water rescue technology and equipment pavilion, drones.
- 5, **special equipment pavilion:** emergency rescue equipment, firefighting vehicles, robots, emergency rescue helicopters.
- 6, **Disaster prevention and emergency industry service pavilion:** disaster virtual interactive experience, disaster prevention and emergency science education, post-disaster construction planning pavilion, insurance companies, emergency procurement units, Beijing-Tianjin-Hebei coordinated development results, social groups rescue institutions.

Previous Live Review

On July 9, 2021, with the theme of "developing emergency safety industry and enhancing scientific and technological disaster reduction capability", the 2021 Beijing International Disaster Prevention and Mitigation Emergency Safety Industry Expo and China Disaster Prevention and Mitigation Emergency Safety Industry Development Forum was successfully held in Beijing from July 9 to 11, which is held once a year. Ltd., China Security Industry Association, China Medical Equipment Association Emergency Relief Equipment Branch, the site from the public security, armed police, industrial information, aviation, fire, health, epidemic prevention, energy, transportation, emergency, embassies and other departments and relevant liaison agencies in Beijing on more than a hundred people to attend. The guests enthusiastically shared new ideas, new models and new thoughts on the development of the disaster prevention and security emergency industry, actively contributed to the high-quality development of China's emergency security industry, and made concerted efforts to accelerate the process of building a safe China. The site was full of high level guests and the communication atmosphere was very strong.

Associated Media

International Online, Chinese People's Political Consultative Conference, People. Com, China net channel, Phoenix, North Youth Network, Chinanews.com, Europe, Sohu.com, Tencent, Bright net, Xinhua, Baidu, Thond Dragons Net, Netease, Sina. Com, China daily and other cooperative media.

Advertising charges

| 20000RMB | 18000RMB | 16000RMB | 15000RMB | 20000RMB | 10000RMB | 20000RMB | 30000RMB | 16000RMB | 20000RMB |

Professional audience

Health, meteorology, civil affairs, water conservancy, land, public security, armed police, agriculture, forestry, education, electricity, earthquake, security, information center, remote sensing, detection, mapping, monitoring, search and rescue, border defense, coastal defense, civil defense, human defense, transportation, tourism, aviation, national defense, satellite, justice, aviation, customs, nuclear industry, industry, environmental protection, maritime, marine police, railway, food, sea, medicine, medical, red, foundation, postal, banking, insurance, weapons, ships, universities, petroleum and petrochemical, supervision, embassies, air control, airports, ports, underground construction, municipal, trade, industry colleges, disaster prevention and control, emergency departments, etc.

Exhibiting Procedures & Services

- 1、 The booking of booths will be made according to the principle of "first registration, first payment, first arrangement".
- 2、 To book a booth, fill in the "Application Form" and fax, scan or mail it to the Organizing Committee of the exhibition after signing and stamping.
- 3、 Participants will pay the full amount within 2 working days from the date of registration.
- 4、 After receiving all the booth fees, the organizing committee will issue the "Exhibitor Qualification Letter" to the exhibitors, and the exhibitors will report to the exhibition within the specified time with the letter.
- 5、 If the exhibitors do not pay the booking fee within the stipulated time, the Organizing Committee has the right to transfer the booth.
- 6、 The Organizing Committee will issue the Exhibitor's Manual Guide to the exhibitors to introduce the pre-show related matters in detail.
- 7、 The exhibitors will provide their company profiles and company news to the organizing committee, which will serve the exhibitors through many media such as the media, the official website of the exposition, the exhibition website of Zhongsheng and the public number of the emergency exposition.

- Theme** Development of emergency security technology to help build a safe city
- Expo Goal** Provide a complete sourcing platform for buyers and create more market opportunities for exhibitors.
- Exhibition purposes** The purpose of the exhibition is "to serve all exhibitors wholeheartedly".
- Time and place**
